Work Experience

Software Developer

ZKSoftware, Istanbul. | April 2019 - Present

- Created JAVA libraries for SDK APIs of biometric products such as Hikvision, Hysoon, ZKTeco.
- Developed an access control system for security devices. Improved performance of existing applications by modifying database architecture.
- Database application development.
- Developed and maintained applications passing through all stages including system analysis.
- Developed a modern web application using React.js, Express.js, MongoDB

Software Developer Inter

ZKSoftware, Istanbul. | June 2018 - August 2018

- Helped to create a Java library for ZKTeco biometric devices using Pull SDK API.
- Developed software to communicate between biometric devices and clients.
- Translated the software into different languages so that it could enter the foreign market.
- Fixed some script related bugs that cost performance of the software.

Academic History

ISTANBUL KULTUR UNIVERSIT

Computer Engineering (Bachelor)
2015-2019

ISTANBUL TECHNICAL UNIVERSITY

Computer Engineering (Master)
2020-

Projects

- Football league DB using MS SQL
- E-commerce mobile app using Flutter
- Java Spring Rest API
- 3D Book for kids with augmented reality on Unity.
- Emotion Analysis using a wearable device in 2D Displays versus Virtual Reality Environments
- ZKToolBox
- Export File Helper
- ZKFlex Employee Tracking System
- Personnel website using MERN Stack
- Admin Panel using React
